THE NAUKABOUT STORY

Our story started over 30 years ago with our co-founders' father. He would come home from work, change out of his work-a-bouts, and tell his sons to "change into their nauk-a-bouts" in order to "get outside for some fun!"

Ever since then, Naukabout has meant doing the things you love to do after doing the thing you have to do. Whatever your passion – BBQ's in the backyard, seeing a concert, going fishing, relaxing at the beach with friends and family – that is what Naukabout is all about. Where would you be if you could? Where do you Naukabout?
